206 A: Educational Event Management

In this practical, the celebration of women's Day in the educational institution was meaningful and enriching experience. This event helped in creating awareness about women's right, equality, achievements and empowerment among students and teachers. Managing this event provided practical knowledge about planning, organizing, co-ordinating, and executing educational activities successfully.

Overall, the education event management of women's day celebration was a valuable learning experience. It improved organizational skills, teamwork, and leadership abilities while performing the message of gender equality and women's empowerment.
