202: Assessment And Evaluation For Learning

Practical - Develop an achievement test with its Blue print, Answer key and mark Distribution.

This practical helped me understand the process of constructing an achievement test in a systematic way. I learned how to prepare a blueprint, question paper, answer key, and scoring scheme according to learning objectives.

It also improved my understanding of fair evaluation, proper question framing and marks distribution. Overall, this practical was useful in developing my skills in assessment and evaluation.
